¹ Actual display resolution is subject to your system's video output capability.

² Depending on many factors such as the processing capability of peripheral devices, file attributes, and other factors related to system configuration and operating environments, the actual transfer rate using the various USB connectors on this device will vary and is typically slower than the data rates as defined by the respective USB specifications: 5 Gbit/s for USB 3.1 Gen 1; 10 Gbit/s for USB 3.1 Gen 2; and 20 Gbit/s for USB 3.2.

³ For the latest compatibility information, please check the Accessories Compatibility Guide on www.lenovo.com/accessoriesguide, or visit: accessorysmartfind.lenovo.com

- Lenovo USB-C and Thunderbolt™ Docks function with laptops that support industry-standard USB-C Alt-Mode or Thunderbolt™ protocols through their Type-C™ port. Users may experience reduced performance when not used with the matching protocol.

- Lenovo USB-C and Thunderbolt™ Docks support additional features, such as MAC address pass-through, WOL, and mirrored power button on most Lenovo ThinkPad laptops. Still, such features may not be available on all other Lenovo laptops or non-Lenovo branded laptop systems.

⁴ Support silent firmware update.
